Herd It! BoviSync Notes

BoviSync™ streamlines processes on dairies with intuitive tools. Insights by BoviSync result in easier and more profitable decision-making

Pen Scoring now available in Mobile App

Pen scoring is now released globally in the BoviSync Mobile App. This feature is available for all users with access to a BoviSync herd or any other herds.

Dairy consultants add value to dairies through their observations and recommendations. BoviSync allows consultants to record and share their observations from a mobile app that

their data management needs. Consultants use intuitive forms in the mobile app that allow for quick entry of pen-level recording of body condition scoring, lameness, teat scoring, and other observations. Reporting is available immediately in the farm and accessible to anyone with permissions granted by the

supports multiple herds. Having a unified tool allows seamless information handling and results in a professional presentation of this information in a package the dairies already rely on for

Consultants are encouraged to use Pen Scoring in non-BoviSync herds. Non-BoviSync herds can be scored by enrolling them in a BoviCorral account, which is a free subscription service. Once in BoviCorral Pen Scoring can proceed.

Learn More

BoviSync App with Allflex Dual Stick Readers Is Allflex Dairy Cow Monitoring part of your herd management? BoviSync customers can

now utilize the BoviSync Mobile App to capture NFC tags using the Allflex Dual Stick Reader. Allflex SCR Activity tags can be difficult to read visually, especially when worn by an animal. Being able to read the tag electronically and record the information seamlessly is a huge time saver and key to error prevention.

This feature is available upon request from support@bovisync.com.

We provide regular training for new users of BoviSync. Technicians and consultants without prior

Upcoming Training Sessions

experience in BoviSync should consider signing up for training. Scott and Pedro are happy to answer any questions during the sessions.

Bovi-Insights Report Training

We add trainings regularly, please check back in the future:
